

Sometimes, compromises have to be made. The Arena range of road trunks is designed to provide the usual top quality construction, allied with a 'suitable for road' use, all without putting a strain on your finances.

CASES BY DESIGN®

Featuring a 9mm plywood carcass, with a smart High-Pressure Laminate (HPL) exterior finish and high quality Penn Elcom hardware. 30mm aluminium angle and mating location profiles to all exposed edges. 4" heavy-duty casters are fitted as standard, two of which are braked.

Our range of ten exterior colours are available as standard, including Black, Light Grey, Slate Grey, Purple, Navy Blue Red, Royal Blue, Orange, Yellow and Dark Green. Black Hexaboard finish is also available, along with non-standard HPL finishes to special order. Choose an empty trunk or complete with divider 'combs' and dividers.

The dividers can be positioned at 25mm intervals, providing a versatile compartment system at a sensible price. The 100mm deep tray, designed specifically for this trunk range is also available. See the option list below for details and prices. Three standard sizes are available, the Arena 600, 900 and 1200. Nominal dimensions are also shown.

TRUNKS

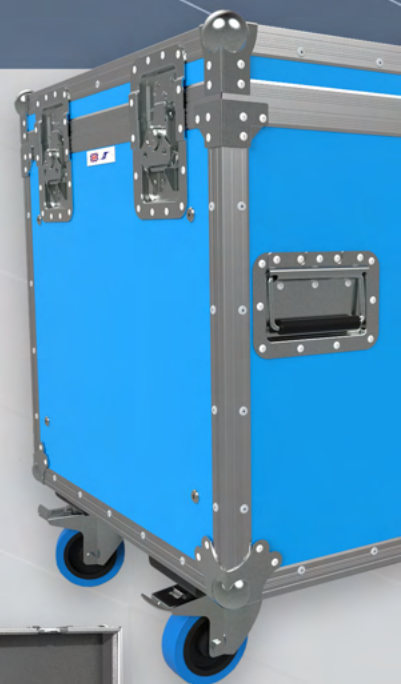

Type	Internal nominal dims. (mm approx.)
