

Still one of the most popular road trunks available!

One of 5 Star's best-selling products....is the Eurotrucker road trunk. Thousands of these popular general-purpose trunks are produced each year, with its Quarter Pack design for sensible vehicle loading and its durability makes the Eurotrucker a wise choice for touring companies.

From the 'Super-Tour' stable, construction is from high grade 12mm plywood throughout, to which is bonded a high-pressure laminate (HPL) exterior covering. This HPL is available in ten standard colours, as well as any RAL or Pantone® shade to special order*.

Groove-riveted 35mm (30mm on Half Euro) aluminium angle profile is fitted to all exposed edges, as well as hybrid location profile to give a dust-tight seal between the lid and base.

Zinc-plated hardware ensures longevity, even in the harshest of conditions.

Options include various removable tray and divider formats, recessed stacking and PAL label dishes. An equally-versatile Tour Grade 'Half Eurotrucker' is also available for those smaller logistics.

<u>Description:</u>	<u>Part No:</u>	<u>Int. Dimensions (mm)</u>
Super Tour Eurotrucker	6587	1124 (L) x 554 (W) x 550 (H)
